

2nd Overall 2005  
East Coast Enduro Championship  
Michael D. Bradway

Many thanks to:  
Moose Racing USA

Well, I'm sorry I couldn't be more of a thorn in Richard's side in 05 but I promise to try and do a better job of that in 06.

Often times it seems people assume that placing at the top means the rider is ultra serious. I sometimes hear things like "not as serious as you guys" or the like which really isn't true for me. My focus is always on having fun. Some events seem to be just survival runs when the weather is ugly or the terrain is difficult, but like myself, I think most people get a satisfied feeling after conquering tough conditions.

It could be perceived as serious when trying new technologies or different training ideas or energy drinks and such, but I think we all want a way to make it easier on our bodies on Monday mornings.

People ask me "how do you ride that thing" when they talk about the Honda CRF450 that I like so much. Whether it's that bike or any other, I tend to gravitate towards whatever is a blast to ride, which I personally feel is most important.

To me it's not always what bike will match the conditions closest but what will inspire me the most. Whether you are in first or last place, I hope everyone gets that feeling of satisfaction now and again when they are hitting all the turns just right, the trail conditions are ideal, and you feel like you can't make a mistake.

It's all about the ride. Thanks everyone and have a great 2006!

Thanks very much to the Solomon family, and Bob for being my main man on my number and to the Ciaurellis, Callahans, Melniczucs and Laffertys for all the help throughout the year.

Thanks to all the riders in my club the Tri County Sportsmen and all the other East Coast Enduro Association riders who make racing this series friendly and fun.

THANK YOU VERY MUCH:
